

SPEECH PRIVACY IN THE MODERN WORKPLACE

How to solve open office distractions affecting your bottom line

OPEN OFFICES INCREASE DISTRACTIONS

Flexible offices improve collaboration but increase distractions and privacy issues.

NOISE TRAVELS more freely in the open space.

The modern office design makes **SOUND BOUNCE & REVERBERATE**.

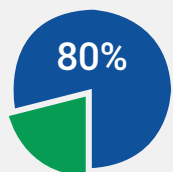

HOT-DESKING = more people talking

OFFICE DISTRACTIONS = DISENGAGED EMPLOYEES

75% of employees rated workplace acoustic as the worst aspect of the office environment

More than 80% believed their acoustic environment hinders productivity

STRESSED WORKERS AFFECT BOTTOM LINES AND REPUTATIONS

Noise and distraction in the modern open office results in:

#1 High Stress

27% higher rates of absenteeism

62% higher rates of illness/injury

#2 High Error Rates

Disengaged employees are **18%** less productive

#3 High Turnover

Disengaged employees are **20-40%** more likely to seek employment elsewhere.

Employees with **low engagement** worsen your bottom line by **32.7%** up to

They cost organizations like yours almost

\$600B annually

SPEECH PRIVACY HELPS YOUR BUSINESS
