

VA-VIBX

Sound Masking System Vibration Loudspeaker

The VA-VIBX loudspeaker is designed to generate the optimum masking sound through a wall or ceiling partition. When applied on a light partition such as a gypsum wall or ceiling, the VA-VIBX converts the wall to a sound masking loudspeaker. The result is a diffuse sound perfect for effective sound masking.

The VA-VIBX is also excellent for anti-espionage applications and can significantly limit sound transmission between rooms when attached to windows, doors and HVAC ducts.

TECHNICAL SPECIFICATIONS

Power	5 W
Enclosure Material	Fireproof ABS
Frequency Response	100 Hz to 8 kHz
Connectors	Screw-On
Driver	Vibration Exciter
Max Nb VibX/channel	4 per output channel
Mounting	Self-adhesive
Color	White
Weight	0.14 kg (0.3 lbs)
Shipping Weight	0.25 kg (0.6 lbs)
Box Dimensions	14.5 x 14.5 x 3.5 cm (5 1/2 x 5 1/2 x 1 1/4")

*Tap speaker to 2W@25V
